

Toan Le Ba

Frontend Web Developer

- +84383017053
- kenzo.devweb@gmail.com
- Hanoi, Vietnam

CAREER GOALS

Master frontend technologies, build a robust portfolio, collaborate with and learn from experienced developers, and stay updated on industry trends. Expand skills to become a proficient full-stack developer.

WORK EXPERIENCE

Bac Ha Software Co., Ltd.

Apr 2022 - Now

FRONTEND DEVELOPER

Over nearly 2 years here, I've achieved numerous milestones in my role as a frontend developer. I've developed strong working skills and engaged in professional communication with clients. The experience has been instrumental in my learning journey and honing programming skills.

PROJECTS

Event Management System

May 2023 - Now

WEB DEVELOPER

Performing customer requests, developing web applications with specific designs, ensuring responsiveness with high precision. Integrating APIs for the website. Handling some small tasks in the backend as needed.

TECHNOLOGIES:

Using Next.js with TypeScript for development. Styling with Tailwind CSS, Styled Components, and Material-UI. Verifying UI with the Perfect Pixel tool. Employing Jotail for state management. Handling data with Apollo Client using GraphQL.

Children Product Store

Aug 2022 - Apr 2023

FRONTEND DEVELOPER

My responsibilities include designing interactive and dynamic user interfaces, overseeing the management of component state, integrating APIs, and ensuring the overall performance and quality of front-end applications developed using the React.js library

TECHNOLOGIES:

Utilizing Next.js with a combination of Tailwind CSS, Styled Components, Ant Design for styling, Redux for state management, and Axios for data handling.

Social Account Promotion Platform

Apr 2022 - Jul 2022

FRONTEND DEVELOPER

Develop a user interface and integrate payment functionality for a Social Account Promotion Platform using ReactJS and Strapi.

TECHNOLOGIES:

Develop a project using ReactJS, Styled Components, and Strapi as the core technologies.

EDUCATION

MAJOR: INFORMATION TECHNOLOGY

Hanoi Open University

INTERESTS

I enjoy immersing myself in novels, engaging in the invigorating activity of running, and sharing the culinary experience of cooking with the person I love.
